IN ADDITION to a vast range of Industrial Hardware products, we proudly represents the following world leaders in the sector.

Accuride

Always Moving Forward

Accuride slides are designed into a wide range of applications such as fine furniture and cabinetry, high-end appliances, electronic enclosures, luxury automobiles and utility vehicles, and industrial equipment. Accuride built its reputation on quality and ensures strictest standards. Accuride has more than 1 million square feet of manufacturing space around the world and is the largest company in the world dedicated to the innovative design and manufacture of ball bearing slide products. www.accuride.com

southco[®]
CONNECT · CREATE · INNOVATE

Trusted Global Leader in Engineered touch Point Solutions, Electronic Latching and Constant torque hinging.

Southco has built an unmatched portfolio of access hardware solutions, through innovation and strategic acquisitions. Southco offers over 25,000 standard catalog products and more than 50,000 custom products that have been created to meet customers' design needs. www.southco.com

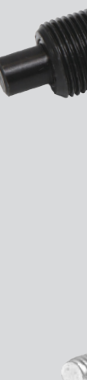

FRIGERIO ETTORE S.p.A.

Frigerio Ettore designs, produces and commercializes a unique range of fastening and hardware articles. The company provides the customer with a wide range of zinc-plated, nickel plated, painted, stainless steel latches. www.frigerioettore.com

Rencol
C O M P O N E N T S

Rencol Components has been designing, developing and manufacturing plastic and metal components for over 90 years. Rencol Components has built a global supply chain, developed an expanded range of high-quality, competitively-priced industrial components. www.rencol.com

EBERHARD®

Being a hardware manufacturer for over 130 years and offering over 5,000 products, Eberhard knows how to provide customers with quality products and dependability. When you purchase any standard, special or custom-made Eberhard product, you're getting the best service and delivery in the industry.

Eberhard's commitment as a manufacturing company is to provide you with only the highest quality products by using the highest quality materials that are available. Eberhard continues to manufacture many of their items at the Strongsville facility, but also now have manufacturing locations in Ontario Canada and China to help support customer's demands. www.eberhard.com

STABILUS

Your expert for gas struts, dampers and electromechanical drives.

As a world market leader in gas struts and hydraulic vibration dampers, Stabilus has proven our expertise in linkage systems for decades. Stabilus products are used in the automobile and furniture industries, in housing and building technology and even in medical products as well as rehabilitation technology. Stabilus gas struts, dampers, and electric drives allow you to optimize opening, closing, lifting, lowering, damping, and adjusting actions. www.stabilus.com

PIVOTPOINT^{INC.}

PINS > CABLES > SOLUTIONS

Pivot Point manufactures both stock and specialty Non- Threaded Fastener Solutions. Pivot Point continually invests in automation, systems and improvements to allow the provision of fast lead times and competitive pricing. Pivot Point is widely recognized for its progressiveness in developing new fastener solutions to solve particular fastening challenges. Exclusive innovations include SLIC PinsTM, Bow-Tie Locking CotterTM Pins, Rue RingTM Locking Cotter pins, Nylon LanyardsTM, Infinity S-HooksTM and more. www.pivotpins.com

ROLLON[®]
Linear Evolution

ROLLON is a leading international manufacturer of linear bearings and actuators designed to meet the requirements of engineers involved in machine design applications across all industries including plant assembly, packaging design, transportation, and manufacturing, medical device development. ROLLON family of linear motion products includes its flagship COMPACT RAIL, TELESCOPIC RAIL, X-RAIL, CURVILINE & UNILINE family of products. www.rollon.com

Rohde

'Quality for Industry' is characteristic for the entire Rohde AG range of products and services. The combination of state of the art mechanical production and decades of experience in surface technology makes not only a diversified standard programme possible, but also offers a high level of flexibility in catering to individual customers requirements.

We offer handles of single elements, a large technical range, aluminium bow type handles of round rod, collapsible handles, stainless steel handles and many more to suit a large range of applications. www.rohde.com
